

RealPort™ ISDN Connection Kit

Get connected at the fastest speeds available

Get connected at the fastest speeds available and turn your RealPort Modem (or RealPort Ethernet+Modem) into a versatile digital communication solution with Xircom's RealPort ISDN Connection Kit (RICK).

It provides high-speed digital communications up to 128 Kbps for mobile users by connecting your Xircom GlobalACCESS RealPort Integrated PC Card Modem to an ISDN line.

With the RealPort ISDN Connection Kit, you'll benefit from increased performance, productivity and efficiency. ISDN is ideal for high-speed Internet, remote LAN access and faxing when telecommuting from your branch, home or remote office.

FEATURES AND BENEFITS

High Performance

- Basic rate (2B+D) ISDN solution for 64Kbps to 128Kbps data communication
- Active solution reduces processor load

Remote LAN access

- via Windows 95/98 dial-up networking
- via other ISDN RAS applications

Internet access

- Easy internet access with fast call setup
- Provides high-speed digital communications at 128Kbps through bundling of two ISDN channels

ISDN Software for Faxing, File Transfer

- RVS-COM for Windows 95/98 and NT bundled software package offers a complete set of applications for voice telephony and video-conferencing
- Group 3 and Group 4 faxing
- 'Drag and Drop' transfer of files

Automatic Selection

- Automatically selects ISDN functionality when cable is inserted into the RealPort Integrated PC Card

Easy to Use

- LEDs for status information at a glance
- Supports a wide range of network operating systems including Windows 95/98 and Windows NT
- ISDN configuration utility for easy set-up

Compatibility

- Supports standard communication software packages through AT command set
- Supports CAPI 2.0 standard for ISDN applications, on-line services (available spring '99 via free web download)
- For worldwide use: supports US, European and Japanese ISDN networks
- Compatible with Xircom's GlobalACCESS RealPort Integrated PC Card Modems (and Ethernet + Modems) -Supported models:

RealPort CardBus Ethernet 10/100+Modem 56	RBEM56-100
RealPort Ethernet 10/100+Modem 56	REM56G-100
RealPort Ethernet + Modem 56 (10 Mbps)	REM56G-10
RealPort Modem 56-GlobalACCESS	RM56G
RealPort CardBus Modem 56-GlobalACCESS	RBM56G

for Windows® 95 / Lite

RealPort™ ISDN Connection Kit

S P E C I F I C A T I O N S

Model:

RealPort ISDN Connection Kit

RICK/M

Contents:

Xircom ISDN Upgrade Cable
Installation software diskettes
Multilingual User documentation
S/T Interface
RVS-COM software
in US bundled with NT1

Flash Memory

8 MB Flash Memory

ISDN D Channel Protocols:

EuroISDN DSS-1, Europe
VN4, France
National ISDN 1 and 2, US
AT&T 5ESS, US
NTT INS-Net, Japan

ISDN B Channel Protocols:

PPP: Point to Point Protocol
ML-PPP: Channel Bundling PPP
V.110: rate adaptation
V.120: rate adaptation and error correction
X.25: packet switched data
X.31: packet switched data
X.75: for bulletin board access
T.70NL: for videotext access and teleservices
T.90NL: for videotext access and teleservices

Certification

CE Mark
ETSI approved throughout Europe
(CTR-3)

Software Compatibility

Compatible with the most widely used
Operating Systems, including Microsoft
Windows 95/98, Windows NT, OS/2

User Interfaces :

Supports standard Hayes AT command set
CAPI 2.0 support available spring '99 via
free web download.

Warranty

Limited lifetime hardware,
2 years software

Xcessories
